

A Message to Society Members from the Musical Director

Dear society members

We (the committee and I) very much hope that you and your families are well and have managed to cope with the lockdown and to stay healthy. I have missed seeing you each week and no doubt many of you will have missed meeting each other for rehearsals.

This was the weekend we had planned and hoped to perform Mendelssohn's *Elijah*. Who would have imagined when we started rehearsing that we would end up postponing the concert, let alone the reasons for the postponement? I use the word postpone as we still have the music and we do hope to perform *Elijah* in the future. We are very much looking forward to a time when we can resume our singing and the committee will take and communicate any decisions as and when we know more.

I look forward to the time when I can add "Choral Society" back into my list of things I do and enjoy each week. Until such a time, I shall be continuing with the jigsaws, books, running, crosswords, organ practice, online quizzes and online scrabble!

Very best wishes,
Toby
